

THE MOST SUSTAINABLE
PACKAGING CONTAINER
FOR FOOD

WOODEN VENEER CONTAINER

Falca'tainer

THE WOODEN VENEER CONTAINER
IS LINED WITH FOODGRADE
GLASSINE PAPER.

Not only does it have the aesthetically rustic and organic appearance, it holds food well and in place. Be pleased by the looks and feel amazed by the hands.

FALCA'TAINER IS STACKABLE, DIY
COLLAPSIBLE, LOGO PRINTABLE AND EASY
TO TRANSPORT.

It is a container that is widely used for food service
and gift packaging. Falca'tainer has been successfully
developed as a truly environmentally safe product.

Sustainability

THE BASIC RAW MATERIAL FOR
FALCA'TAINER IS FALCATA, A
WOOD SPECIE.

FALCATA trees are rapid, fast growing trees that only takes 5-7 years to grow and reach its average height of 15m and 35cm in diameter.

FALCA'TAINER, AN ECO-FRIENDLY
CONTAINER SOLUTION, REDUCES THE USE
OF PLASTIC CONTAINERS.

while the FALCATA trees also enhance the quality of air by absorbing a large amount of CO₂.

FALCA'TAINER IS THE ONE AND ONLY
ENVIRONMENTALLY SUSTAINABLE
PACKAGING PRODUCT IN THE MARKET
TODAY.

A bio-degradable product that came from tree plantation. When you dispose of Falca'tainer it fully decomposes into earth. Offering us an environmentally friendly alternative that moves away from the traditional paper and plastic packaging. Join us to create a green and clean future.
